SUBJ: MISUSE OF NSF ACQUIRED TECHNOLOGIES TO FACILITATE THE
HIGH-SPEED TRANSFER OF SNUFF FILMS VIA THE UIC
ELECTRONIC VISUALIZATION LABORATORY (EVL)

Ladies and Gentlemen:

1. As you are aware, a Cambridge educated forensic economist has published evidence concerning the use of the **UIC EVL** to distribute child murder films (videos) to the senior staff of various federal agencies. These allegations concern the use of federal funds to operate a solicitation for murder network. Therefore, it is strongly suggested you notify the appropriate parties in the Office of Inspector General's (I.G.) office and the Illinois State Police.

2. David Charles Hawkins (Cloverdale, British Columbia) has stated that based on his scientific research he is convinced that such snuff films are distributed on the EVL network. On at least a dozen occasions Mr. Hawkins has displayed his scientific research on a social media show known as "CrowdSource The Truth (CSTT)" sponsored on the PATREON.COM network. Mr. Hawkins is joined by his research assistant, Jason David Goodman, to distribute these allegations in a pervasive manner on several social media platforms (Periscope, YouTube, etc.)

3. Mr. Goodman is infamously known for supervising the actions that caused the closure of the Port of Charleston, South Carolina on June 14th, 2017 due to a "dirty bomb" warning presented to the U.S. Coast Guard by the CSTT audience. The financial losses to the MAERSK SHIPPING LINE (to include reputational damage) have been estimated at \$4,100K. A similar fate may be in the future for the UIC EVL if past actions are an indicator of the future.

4. The most recent example was published on the JASON GOODMAN YouTube.Com channel as seen below. This is one of a dozen videos (Google search EVL BAT CAVE).
